

2014 CWG Conference, Marco Island, FL - Oct 5 - 8th

The 2014 CWG Conference in Marco Island, FL was one of the best in years. There were a variety of customer, partner and SAP presentations with great topics. Check out the presentations on the CWG website. We presented an update to the CPQ Market Watch with updates of trends in CPQ and who is doing what. Some interesting times we are having.

We also introduced some new tools for the SAP Solution Sales Configurator (SSC) that display the model and model logic diagrams inside the Eclipse SME. We also introduced a soon to be released automated testing solution for the SSC.
